Good morning,

My son [redacted] was a student at IMSA in the fall of 2023. [redacted] has mild Cerebral Palsy. Due to the schedule and the lack of accommodations and the mistreatment of students, both my sons [redacted] decided to leave and go back to [redacted]. It was a difficult decision, the professors are great, however the supporting not so much. We asked several times for [redacted] schedule to be adjusted, he was going without lunch and traveling from one end of the building to the other with no assistance. We did not receive a call back until it was too late. [redacted] was very upset in having to make this decision. Make no mistake it was not because of the work load, both [redacted] are highly intelligent. They are now Junior High School students attending [redacted] Community College full time. It is a shame how this school administration has deteriorated.

Please call me if you need further information.
